

OFF-ROAD TRAILER ASSEMBLY SPECIALIST I

SasquatchXC, or SXC for short, designs, manufactures, and sells expedition campers capable of accessing remote, rugged terrain. Our headquarters is in Silverton, CO, meaning our products are hand-crafted in the mountains they're meant to be used in. The Handcrafted Assembly Specialist will join a fast-growing group of builders who take pride in their work.

Summary

The Assembly Specialist's primary role is to assist with the building and assembly of expedition campers and other products offered by SXC. Additionally, we consider this a customer service role, candidates are expected to greet visitors, be friendly and take the time to show them our products. A successful candidate will have the desire for continuous improvement. They need to be open to training and coaching sessions, and exhibit characteristics of honesty, dependability, and professionalism. Maintaining a team-oriented and positive attitude at all times is a must.

Essential Functions

- Perform activities such as gluing and fastening interior and exterior panels, assembly of frame, body and kitchen components, 12v wiring and assembly of lighting and electronics systems.
- Greet visitors, give them a world class tour of the facility, answer the phone and help Customers with questions.
- Adhere to inventory levels management processes for purchased parts.
- Ensure Quality Assurance processes are followed, and Quality Control inspections are performed.
- Ensure any non-conformance concerns are raised to management immediately and corrective actions are taken.
- Follow scheduling priorities to optimize productivity and efficiency during assembly.
- Communicate deadline, design, or supply chain issues and equipment needs to management immediately.
- Establish and maintain positive working relationships with other employees.
- Communicate and interact effectively with management and team members through verbal and written means.
- Maintain clean and tidy workstations, understand, research, and implement 5S principles.
- Maintain high level of accountability for performance and quality of work.
- Perform other duties and assist other departments as directed by manager.

Minimum Requirements

- Ability to read, understand, and follow detailed instructions, customer specifications and test procedures.
- Ability to measure, cut, drill, and install components to extremely tight tolerances.
- Willingness to learn 12v electrical knowledge and experience wiring and installing electrical components.
- Ability to safely run power tools, including saws, sanders, drills, and grinders.
- Possess a high level of mechanical aptitude and analytical skills.
- Possess dexterity skills to work with hand tools, test equipment, and computers.
- Willingness to learn manufacturing processes and effectively troubleshoot problems.
- Adaptable in a changing work environment, including toolbox and workstation changes and 5S optimization.
- Communicate time off requests to your manager with sufficient advance, allowing time for planning.
- Experience in a manufacturing environment is desired.
- A High School Diploma is required. Trade School or experience in a fabrication environment is desired.

The most important skills you can bring to the job are a positive attitude, passion for Customer Service, ability to embrace and drive change, joy, fun and humor. We are looking to create a fun work environment with a team of great people. If you can bring these skills, we will teach you the rest!

Pay starts at \$20/hr, depending on experience, with 4x10 work schedule (M-Th).

To apply, please email your resume and a compelling cover letter outlining why you are an ideal fit for this role to jobs@sasquatchcampers.com.

We know because we GO.
